BWMSQA

Description

Glass thickness: 10-12 mm

A wooden deck with a glass railing overlooking a forest with yellow and green foliage. The railing is made of black metal spigots and glass panels. The deck is made of light-colored wood. The background is a dense forest with trees showing autumn foliage in shades of yellow and green.

Glass spigot railing has both practical and beautiful features. It can mark your territory and protect your safety without blocking your sight, so you can enjoy all the beautiful scenery.
